SUMMARY

Results-driven Full-Stack Software Engineer with over 5 years of hands-on experience designing and building production web applications using Next.js, TypeScript, Python, and WordPress. Founder and lead developer experienced in delivering custom business systems, financial management platforms, and professional websites for clients. Skilled in developing scalable, secure, and user-focused solutions with strong attention to performance and cost-efficient deployment. Proven ability to work independently with clients from concept to deployment while translating business needs into reliable digital solutions. Passionate about continuous learning and building technology that helps businesses grow.

WORK EXPERIENCE

Mid-Level Developer

May 2024 - PRESENT
